For over 16 years, people have depended on the CooLoop to deliver positive impressions and peace of mind.

Engineered to move, the CooLoop's unique safety design features hold securely, yet reliably release at the right time. Safer than ties or snaps, the CooLoop's patented QuickSafe Connector provides great security, while it's clean, smooth design stages logos precisely where they're seen clearly and remembered.

Comfortably worn around the neck, the unique properties of the CooLoop's microsilks rapidly lowers body temperature by conducting greater cooling to help people stay refreshed and content. Mimicking basic principles of an Air Conditioner, only the CooLoop can absorb and evaporate a copious 16fl oz (1/8 gallon) of water to produce up to 72 hours of continuous drip-free cooling in the exact

spot needed to extinguish elevated temperatures. Your clients will endure more heat and feel cooler so they'll stay fresher, longer. Simply soak in water, wrap & snap! Provides long term thermal regulation with no need for repeated "wet-and-flap" maintenance. Refrigeration or ice is not required.

Personal protective equipment that's perfect for all your athletic & outdoor events, gyms, concerts, picnics, workers - everywhere people will benefit from comforting relief delivered by your CooLoop, safe message. Helps with heat stress, health & safety programs, increased productivity, performance and stamina.

Each and Every CooLoop includes:

- 1.5 x 3" dye-sublimated logo (digital 4 color process) that's guaranteed to last -- will not bleed
